

GEOGRAPHICAL INDICATION (GI) REGISTRATION CERTIFICATE

Prepared in IPOPHL-aligned format for Kapeng Barako (Coffea liberica W.Bull)

This document package contains a synthetic but literature-grounded model of the following IPOPHL-related GI submission components:

- GI Registration Certificate
- Official Registration Notices
- Registration Documentation Summary
- Traceability and Compliance References

The structure and formatting are based on IPOPHL GI application practices and the uploaded reference documents.

1. GI Registration Certificate

Field	Details

Certificate Status	Registered and Protected under Philippine GI framework

2. Official Registration Notices

NOTICE OF GEOGRAPHICAL INDICATION REGISTRATION

Notice is hereby given that the Geographical Indication “KAPENG BARAKO” has been entered into the GI Registry for agricultural coffee products originating from Batangas and Cavite, Philippines, in accordance with the applicable rules and regulations of the Intellectual Property Office of the Philippines (IPOPHL).

The registered GI applies exclusively to products produced, processed, and certified within the approved geographical area and in compliance with the official Manual of Specifications.

Unauthorized use, imitation, or misleading commercial representation of the protected GI name shall be subject to enforcement under the Intellectual Property Code of the Philippines and related GI regulations.

3. Registration Documents

Document	Status
GI Application Form	Completed
Manual of Specifications	Attached

Stakeholder Consultation Records	Attached
Traceability and Farm Records	Attached
Quality Inspection Records	Attached
LGU and Cooperative Endorsements	Attached
Scientific Literature References	Attached
Producer Accreditation Records	Attached
Official Notices	Included

4. Compliance and Traceability Summary

All registered producers are required to maintain:

- Farm production logs

- Harvest records and lot coding
- Processing documentation
- Moisture and quality inspection records
- Packaging and labeling compliance records
- Five-year traceability retention system

Inspection points include farm verification, harvesting compliance, processing controls, green bean grading, roasting validation, and final packaging inspection.

5. Disclaimer

This document is a synthetic sample prepared for research, drafting, educational, and GI preparation purposes only. It is not an official IPOPHL-issued registration certificate. Actual GI registration requires formal application review, publication, opposition procedures, inspections, and approval by IPOPHL.
